This e-learning platform (www.elearning-lac.org) was developed by the Legal Aid of Cambodia and funded by the European Union through UNOPS, designed to equip participants with the knowledge to strengthen the rule of law, pursue justice for mass atrocities, and better advocate for today's most marginalized members of society. It consists of six academic and skills-based training courses on the Extraordinary Chambers in the Courts of Cambodia (ECCC), international criminal and human rights laws, and practical skills for investigations and trial preparation, available in both English and Khmer. The courses are free and open to anyone.
